

powder coating

With one of the largest ovens, Big Red can handle virtually any powder coating project.

Metals doors, outdoor furniture, bikes, car wheels, trailers, metal cabinets and frames . . . there isn't much we can't powder coat.

As one of the most respected powder coating companies, we apply the best technologies and expertise to every project, ensuring that your goods come out with a premium, durable finish. Customers keep returning to Big Red for the uniformity of our powder coating finish, the colour fastness of the end product, and our fast turn-around times.

Our oven is 7 metres in length, 2.4 metres wide and 2.4 metres high – making it one of the largest ovens available so your goods can receive the Big Red powder coating treatment.

With a full range of colours to choose from – including the Colorbond range, textured finishes and metallic sheens – you will be sure to find a finish that suits your requirements.

Powder coating:

- Call for quotes
- Huge range of colours to choose from

sandblasting

Want to give your old goods a new lease of life? Let us restore it at our sandblasting treatment plant.

If you need to get your rusty or dirty goods into pristine condition before powder coating – or to simply make them shine again – you can rely on Big Red's abrasive blasting factory.

Our powerful sandblasting machine can remove rust, grease, paint or any other blemishes from a range of metallic surfaces.

We use top quality garnet grit in our sandblasting machine, to achieve a smooth, uniform finish on your goods. The garnet is recycled for each use, making it an environmentally friendly cleaning option.
