

Retaining wall installs / build information

Please always consider below points before starting you retaining wall.

(1) When building any wall type over 1m high and within 1m of boundary you should always consider the below,

-Contact your local council, building survivor and engineer before any wall builds over 1M high or within 1M boundary.

These contacts will advise you on what's needed to build safely

Icon wall always recommends that you use registered building practitioners for all wall builds.

(2) When building walls 1m and under and not within 1m of boundary we recommend that you follow Icon installation sheet. Locate this information at the bottom of Icon walls website www.iconwalls.com.au under FREE downloads PDF guilds or get a free copy from Iconwalls sales office.
